Ex Parte Quayle

1. The after final amendment of 2-24-05 has been entered into the record and has been fully considered.
2. Claims 13, 16, 30-33 are allowed.
3. This application is in condition for allowance except for the following formal matters:

Specification

4. The disclosure is objected to because of the following informalities:

The specification is objected to for failing to provide a brief description of the drawings (Figure 1) within the specification. The brief description should properly describe the content of the figure such that the sequences are referenced by their appropriate SEQ ID NO. Appropriate correction is required.

Sequence Compliance

5. This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). However, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 for the reason(s) set forth below. Applicant must comply with the requirements of the sequence rules (37 CFR 1.821 - 1.825) before the application can be examined under 35 U.S.C. §§ 131 and 132.

Figure 1 lacks a brief description of the drawings within the specification. The description should denote the sequences in the figure by their respective SEQ ID NO's. Correction is required to fully comply with the sequence rules.

Drawings

6. The drawings filed on 9-21-98 are acceptable but are informal. Formal Drawings should be submitted. Note that the drawings require references to the SEQ ID NO's contained therein either within the specification at the brief description of the drawings and/or within the drawing itself.
7. Prosecution on the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.
8. A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
